“ *So very sorry to learn of Donnie's passing. Both Dave and I went to school with him, and he helped us for a few fall harvests by driving the tractor and auger cart. We enjoyed all the deer camps with him, and were amazed at how fast he could skin a deer! He enjoyed teasing our daughter, and in fact, came up to the hospital to congratulate us when she was born. We will never forget his sly smile and wit... Our prayers are lifted up for his family.*

“ *Don was a great neighbor and was always here to help or give advise when I needed it.*
No job was to large or small for him to jump in and help without being asked. I missed talking with him after he had moved away.
We had many interesting conversations.
