“ Uncle Donny and aunt Mary Lou are apart of the most fondest memories that I will cherish throughout my life. From my earliest childhood memories they both filled me with such joy and comfort. A sense of love and safety. Even after all the years past I speak of them , telling stories and sharing memories of two people that help make my childhood the best. I will forever until my last breath only have great things to share and hope that the next generation help keep them alive by retelling the stories over and over again. They gave to so many.
