“ Susan was a younger cousin of mine. I was the family babysitter for awhile. She was always lots of fun and I remember holding her on my lap and her laughing while I asked her over and over, "Hey, Susie Q. what's happening with you?" That is what I remember when thinking of her. She usually got my hand-me-downs as that's what we did in those days. I didn't get to see her often, but I followed her on Facebook and was so proud of her accomplishments. She was so family-Oriented, like me and I was so impressed by her getting her family together on a weekly basis. I love you Susan, memories will go on an on. My sincere condolences to all of your family and especially Robert, who made her life beautiful. (She told me that.)
