“ Suzy was an incredibly kind and special person. Our friendship started at Sears almost 30 years ago when we started working together on a new picking process called the Carousel. The Carousel tanked, but our friendship endured! We worked hard, but had a lot of fun also. When my daughter was small, she would always have a special treat for her when we stopped by on Halloween. She will be terribly missed!

“ Suzy, was a very nice person to work with, she will always be in the memory of those that got close enough to her at work. She would always say hi to me in the morning, and like some of us she was really sad that sears was closing down. I got really upset when I heard the bad news. I’m sorry for your loss, may God bless your family.

We were best friends I remember all the summers camping and riding bikes, laying in the sun on my roof to doing all the goofy homecoming dressups. We had so many firsts together . We even had matching cars, life was always better when we were together.

My Sweet Suzy., how I will miss you. The FranCoeur blood ran strong in you. We talked a few days, or so it felt like only a few, discussing so many things like usual.

Because i was sick most of last year, I never got around to getting the pictures of our family so I could distribute them to other cousins.. I've tried several times to talk with the funeral home but they don't return my calls.
